- Extensive overview of the last decade of Ann Wolff's work
- An analysis of the philosophical and existential topic of the Self and the Other through the exceptional medium of glass

The German-Swedish artist Ann Wolff (born in 1937) is one of the most significant and exciting proponents of the European studio glass movement. She has an expert understanding of the characteristics of glass and how to show off the complete spectrum of its diverse possibilities of expression. The publication offers an extensive overview of the period of work over the last ten prolific years. With most of her large-format sculptures, the medium of glass plays a central role, but Ann Wolff is not restricted to it alone; she also uses other materials, such as bronze, concrete or aluminium. The catalogue is boosted by additional selected drawings and pastels. Common to these is the eponymous motif of 'persona', the character mask, which expresses the artist's continuous debate with philosophical and existential issues. In doubling and mirror imaging, in veiling and exposing, she revolves around fundamental questions of the Self and the Other and her bilateral perception.

Ann Wolff holds an accolade from the Glass Art Awards of the Glass Art Society, Seattle, and of the European Culture Prize Pro Europe. She is represented in numerous prestigious museums and collections in Europe, the United States and Japan, including The Metropolitan Museum of Art, New York; Victoria and Albert Museum, London; Nationalmuseum, Stockholm; Designmuseum Danmark, Copenhagen; Hokkaido Museum of Modern Art, Sapporo; Museum für Kunst und Gewerbe, Hamburg; Musée des Arts Décoratifs, Paris; and Musée de design et d'arts appliqués contemporains, Lausanne.
