- Worldwide media interest in the 50th anniversary of the first moon landing
- Previously-unpublished photographs from the Apollo missions
- With a Foreword by NASA astronaut Walter Cunningham

*“If you’re into space exploration, this stunning book is pretty much a must-have. It contains pretty much every legacy Apollo snap in one go, alongside some lesser-known pics that are just as spellbinding.”* — **Amy Glover, BuzzFeed**

July 2019 marks the 50th anniversary of the first manned moon landing — a milestone in the history of humankind. Today, the adventure, courage, and ground-breaking accomplishment behind the NASA Apollo missions remains as compelling as ever.

This thrilling photo book features previously-unpublished photographs from the NASA archives, now meticulously digitised, captured by the Apollo astronauts during their missions. From some 27,000 NASA images, the book’s authors have curated 225 of the most remarkable Apollo mission pictures, creating a uniquely vivid document of one of the most seminal events of the 20th century. Accompanying these extraordinary Apollo photographs are little-known insider facts and fascinating insights into the Apollo missions, including a detailed Foreword from NASA astronaut, Walter Cunningham.

Not only a must-have book for fans of air and space travel, **Apollo VII – XVII** is a hit for anyone interested in photography, pop culture, and modern history.

Authors **Floris Heyne, Joel Meter, Simon Phillipson**, and **Delano Steenmeijer** scoured the vast NASA photo archives to select the most outstanding photos of the Apollo missions.
