- Sixteen notecards (each with a different design), housed in a presentation-quality box
- Beautiful botanical illustrations from a 19th-century atlas of mushrooms
- Includes popular edible mushrooms, like the chanterelle and black trumpet, as well as deadly beauties, like the fly agaric
- Mushrooms are everywhere! Merchandise these premium notecards with your other mushrooming and foraging items
- Price does not include VAT

Mushrooms includes 16 outstanding botanical illustrations from León Dufour's Atlas of Edible and Poisonous Mushrooms (1891). These lifelike colour engravings include the chanterelle and black trumpet mushroom, fit for a delicious meal, and others best left on the forest floor, like the deadly fly agaric. Presented in a handsome box, these notecards are the perfect stationery for the forager or mycophile in your life.
