Price £44.00

- The photo book debut of the young German fashion photographer Stephanie Braun opens a visual dialogue to question or to find one's own visual origin

The first photo book by the German photographer Stephanie Braun (*1995) is titled **OPAQUE** and brings together works created between 2009 and 2019 from the artist's archive. From analogue picture material to computer- and smartphone-generated photography, this publication merges various forms of picture and sounds out the boundaries of contemporary photography. The photos are accompanied by a short story and notes that appear between the pictures. This meditation is inspired by the young photographer's phase of personal discovery, which is reflected in this book.
